No. of participants: 31	Target group: Forestry and Agricultural Advisors

Type of meeting

technical training

Short summary:

Technical training was organized in city of Krizevci as a part of Crafts and Buisness Fair of Koprivnica-Krizevci county. We got quality support from dr. sc. Hrvoje Marjanović from Croatian Forest Institute in a form of excellent presentation on CO₂ problems in Croatia and world.

The training was consisted of five presentations:

1. Biomass district heating - Velimir Šegon, REGEA
2. Forest role in CO₂ circulation – dr. sc. Hrvoje Marjanovic, Croatian Forest Institute
3. New EU norms for solid biofuels - Blaž Štefanek, FES
4. Biomass boilers - Marko Grđan, Centrometal
5. Activities of Environmental protection and energy efficiency Fund regarding biomass projects - Mario Mihetec, FZOEU

After the training we took a tour around the fair to have more practical overview of the things we presented.
