

Wp: 2/ T 1.5	
Country: Croatia, Delnice	Date: 29 October 2009
No. of participants: 21	Target group: wood biomass suppliers and potential investors in woodheating systems

Type of meeting

workshops for buyers and sellers

Short summary:

Main goal of preliminary workshops was to present idea of project “Woodheat solutions” to potential investors and local suppliers of wood biomass in the selected region.

We present wood biomass advantages in comparison to other energy resources and try to explain what would be the benefit to city of Delnice if they would use heating system on wood biomass in the future.

Workshop programme:

1. Introduction
2. **Workshop for sellers**
3. Presentation
Wood biomass – renewable energy
4. **Workshop for buyers**
5. Presentations
 - a) REGEA – local woodheating systems
 - b) Woodbiomass potential - Croatia
6. Participations feedback

On preliminary workshops we got positive feedback. Participations saw their benefits in cooperation with the project. They think biomass is a business potential for them.

We got some participants interested for study tour in Finland and Austria in the next period of the project.
